## WHAT IS GOING ON IN AMERICA AND WHY?

I don't know what America is thinking, but what is happening today stinks to high heaven.

The topic is: wanting to hear from each attendee as to what we believe to be the problems occurring today and why. How much is the TV, news media, and radio, influencing the public and why?

Is **DIVIDE AND CONQUER** the agenda being established in this timeframe? Why? These are elements that are affecting all people throughout America! What is it that is making us act in a manner unknown in other periods of our existence? And who is pulling the strings?

Some of you may say "so what? Some of us may choose to watch TV and not want to look at anything else that may be affecting our judgement. But is watching TV the best thing? What about reading newspapers? Are we being given facts or innuendos? If the latter, why? Recently, actions by football players have made headlines. Why have they chosen to do it?

We define people today as being Left or Right. Not just in certain pockets, but across this nation. Marches are one thing, but when they become riots, what then?

One thing is for certain, much of this has begun since Donald Trump became our President. Why is that? I have my views, but I want to hear others as to theirs. You are the ones I am interested in hearing what you have to say. Our attendance recently has been down. I'm hoping that this topic will bring you out and express your views. We believe Freedom of Speech is not desired by some, because it may prompt an awakening amongst the people. We hope it does. All views are welcome. See you there!
